

CARE & MAINTENANCE - PINETRIM H3 L.O.S.P RAW TIMBER

VER: 1.0

Hume Pinetrim H3 L.O.S.P RAW is a timber product and is manufactured from sustainable plantation grown Pine. Hume Pinetrim H3 L.O.S.P RAW uses a manufacturing process that removes all knots and visible imperfections and is fingerjointed for increased stability.

It is important to remember that it is a timber product and that it will react to changes in climatic conditions during the life of the product. Uneven swelling, raised grain and resin bleed are generally due to varying climatic conditions.

Hume Pinetrim H3 L.O.S.P RAW Treated Pine is timber product and care must be taken to ensure the product remains dry at all times during storage and delivery to site. Before installation store under cover in a clean dry environment away from moisture, excessive heat and direct sunlight.
