

PRIMACTU™

FIBRE CEMENT

VER: 1.0

PRIMACTU™ is an eco-friendly internal underlay for ceramic tiles. Designed to limit movement that occurs in timber, particleboard and plywood substrates.

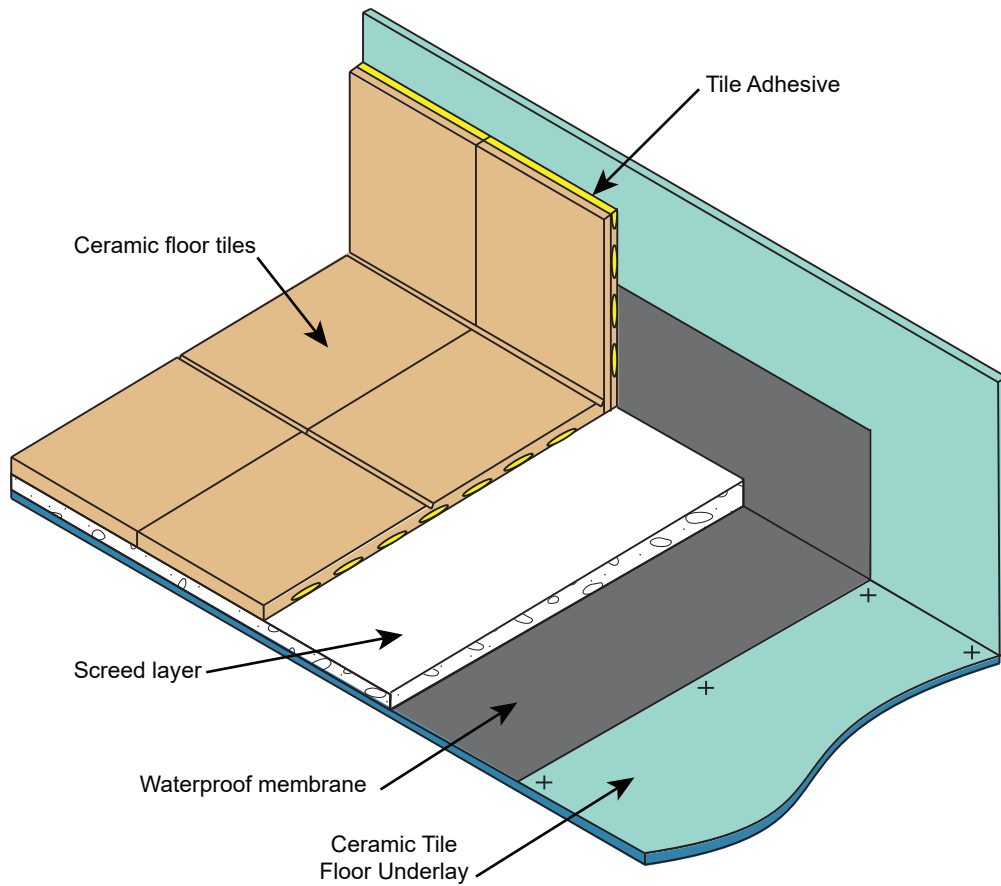

What is PRIMACTU™ designed for?

PRIMACTU™ is suitable for both wet and dry areas. Place on top of internal timber, particleboard and plywood substrates and under ceramic tiles to allow you to showcase your rooms hidden potential.
