BANDIT DOOR

THE SECURE DOOR SYSTEM

- ✓ SECURE, ROBUST & BUILT TO LAST
- ✓ THE STRONGEST TIMBER FRAMED DOOR SYSTEM
- ✓ A PERFECT BALANCE OF STYLE & SECURITY

Hume Doors & Timber is a family owned company with family-based values and when it comes to the safety of you and your family, we understand there should be no compromise.

The Bandit Secure Door system has been put through rigorous testing and has consistently exceeded industry standards. The Bandit Secure Door system consistently outperforms standard timber doors, making it one of the strongest timber door systems on the market.

CONSTRUCTION

HANDING OF FRAME

SYSTEM TERMS	SYSTEM DEFINITIONS
FRAME	The Bandit Door Frame is the complete secure timber door frame solution. Incorporating a rigorously tested Weatherguard frame with reinforced metal stiles for added strength. Frames are fitted with an intumescent fire & smoke perimeter seal, the seal is removable for painting and is easily reinstalled.
DOOR CONSTRUCTION	Durable multi-layer construction consisting of a strong fibreglass composite layer and HMR MDF core. Timber frame and reinforced metal sides have been added for extra strength. Tempered hardboard faces as standard with the option of SPM or Merbau.
GLAZING	6.38mm Translucent Laminate glass only.
SIZE	Standard door size 2040x820x40mm, special sizes available up to 2440x1200x40mm.
HINGES	Frames supplied with a minimum 3 x 100mm square butt hinges for doors up to 2040x820. Frames for doors over this size require 4 x 100mm square butt hinges.

DISCLAIMER: The Bandit Door Secure Door system is strong enough to withstand most attempts at forced entry while retaining the aesthetics of timber entry doors. Used primarily in residential situations, this product must be installed correctly to be secure and should not be considered the only form of entryway security.
