INTERIOR MOULDING PRODUCT CATALOGUE

CONTENTS

Meranti

Solid Hardwood Interior Moulding Profiles

Meranti is a hardwood with soft characteristics making it perfect for decorative purposes such as skirtings, architraves, jambs, reveals, panelling, joinery and window frames.

Meranti Mouldings are suitable for interior applications that require a high quality stain-grade finish.

Meranti has a straight grain with few colour variations, blending from reddish to golden brown with grey and yellow highlights.

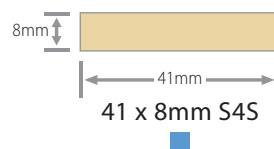

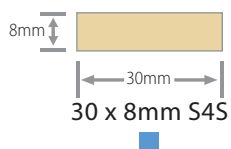

MERANTI PROFILE DRAWINGS

3	Dressed All Round:	14	Small Mouldings:
3	8mm S4S	14	Quad:
3	12mm S4S		12mm 18mm 23mm 30mm 41mm

SUPPORTING PRODUCT INFORMATION

For further information, contact us for a copy of our product catalogues:

PINETRIM PLUS

Pre-primed Ready to Finish Timber Door Jamb,
Window Reveal, Skirting & Architrave, & Mouldings

Pinetrim Plus provides a durable foundation coat consisting of a primer and undercoat system which is pre-sanded and ready for top coat application.

PINETRIM XT®

H3 LOSP Pre-primed Timber Chamfer Weatherboard
& Moulding Profiles

Pinetrim XT® comprises timber chamfer, weatherboards, structural products and moulding profiles, together with all associated timber componentry that is supplied pre-sanded and pre-primed and undercoated with an acrylic paint system, ready for installation.

Pinetrim XT® is manufactured from finger jointed, glue laminated Radiata Pine timber products that have been treated to H3.1, meaning it is suitable for use as an external product range.

SUPPORTING PRODUCT INFORMATION

For further information, contact us for a copy of our product catalogues:

PINETRIM XT®

H3 LOSP Pre-Primed Structural Beams, Bearers, Joists & Rafters
TECHNICAL MANUAL: F7 | GL8

Pinetrim XT® F7 and GL8 comprises a full range of timber for your structural requirements.

This product has been designed in conjunction with all required building practices for external deck, pergola, patio and gazebo projects.

Pinetrim XT® F7 and GL8 products are manufactured from finger jointed, glue laminated Radiata Pine timber that has been treated to H3.1 — meaning that it is suitable for external above ground use.

SILKTRIM

HMR MDF Moulding Profiles
Skirting & Architraves

Silktrim mouldings are manufactured to allow for a straightforward and rapid installation, while providing the perfect primer for an excellent paint finish. Elegant styles and stable engineered construction, is why Silktrim is the sought after option for final fit out stages in new homes and commercial developments.

SUPPORTING PRODUCT INFORMATION

For further information, contact us for a copy of our product catalogues:

PINECLAD TMT

Thermally Modified Timber

Enhanced Durability & Dimensional Stability

Pineclad TMT is a range of exterior and interior profiles that have undergone a thermal modification process regulated by a computer-controlled kiln to ensure consistent quality.

Organic compounds and moisture are cured from the timber, changing its physical properties and providing new benefits which include elevated resistance to fungal decay and insect infestation without the need for chemical preservatives; a decreased likelihood of resin bleed; and enhanced durability, dimensional stability and thermal insulation properties.

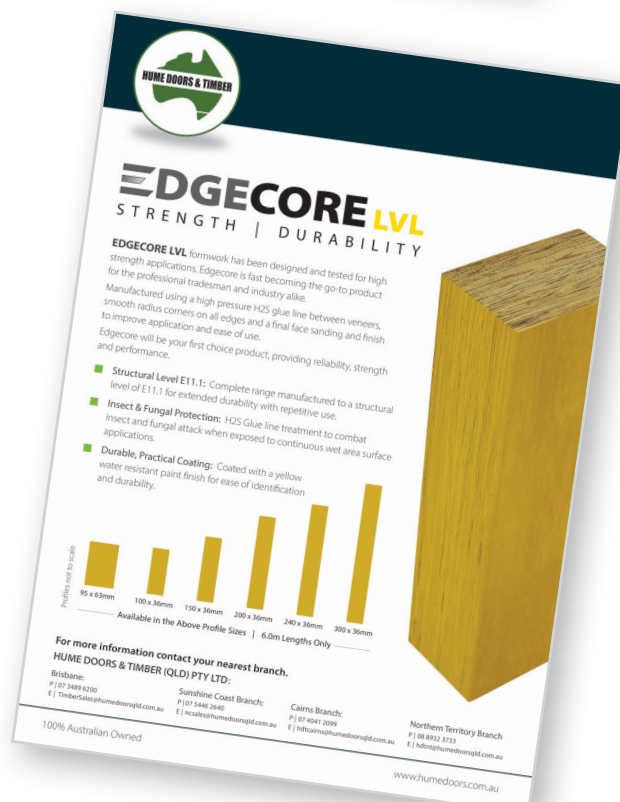

EDGECORE LVL

Structural Level E11.1

Reliability, Strength & Performance

EdgeCore LVL formwork has been designed and tested for high strength applications.

Manufactured using a high pressure H2S glue line between veneers, smooth radius corners on all edges and a final face sanding and finish to improve application and ease of use.
