Pinetrim PLUS

Pre-primed Ready to Finish Timber Door Jamb,
Window Reveal, Skirting & Architrave, & Mouldings

Pinetrim Plus is manufactured from plantation grown FSC and PEFC certified Radiata pine. Product benefits are:

- **Maximum Stability:** Pinetrim Plus is produced from a defect free, finger jointed Radiata product.
- **Defect Free:** The priming and sanding process has been developed to provide an imperfection-free finish.
- **Superior Paint Finish:** The three-coat priming system used in the manufacture of Pinetrim Plus has been developed over 10 years and proven to be hard wearing whilst giving a superior base for a second-to-none final paint finish.

Points to Consider:

How To Specify

Pinetrim Plus suits all applications and requirements within the residential and commercial markets. The following must be considered before use of the product:

- Site-specific conditions, moisture, fixing point;
- Durability requirements of all fastenings;
- Regional or local building codes for treatment requirements;
- Anything else relevant to the project.

Installation & Fixing

- Ensure all cutting tools and saw blades are sharp and in good order for best performance. A finishing blade with a thin kerf or high tooth count is recommended when using power saws.
- Prepare boards by lightly sanding and priming all cut ends with premium acrylic primer undercoat.
- 11mm thick Pinetrim Plus mouldings should be fastened with a 38mm finishing brad.
- 18mm thick Pinetrim Plus mouldings should be fastened with a 50mm finishing brad.
- 30mm thick Pinetrim Plus mouldings should be fastened with a 63mm finishing brad.
- It is important not to over-fix Pinetrim Plus. We do not recommend nailing within 20mm of the profile end, as splitting may occur.
- When joining the profile, mitre cuts should be used and the joint must be glued using either a PVA or PU adhesive.
- Pinetrim Plus can also be fixed using a contact and wall adhesive in accordance with the manufacturer's instructions.

Painting

Prior to painting fill all nail holes from the fixing process with a quality acrylic or wood filler. Once cured, sand excess filler with a 180 grit sandpaper.

- Ensure mouldings are free of dust and dirt prior to painting.
- Apply two coats of either acrylic, enamel or latex paint, sanding between coats to achieve the ultimate finish.
- For best results, we recommend Pinetrim Plus is painted within one month of installation.

Hume Safety

- Ventilated working areas.
- PPE (Personal Protective Equipment).
- Correct tools for the job.

Environmental Commitment:

Hume Doors & Timber is committed to operating its entire business in an environmentally sustainable manner at all times including but not limited to:

- Hume solar power scheme – Reducing our carbon footprint.
- Reusing and recycling by-products, packaging and waste material.
- Reducing the levels of consumables used.
- Capturing, storing and using rainwater for our water needs.
- Maximise transport needs, thus reducing our energy requirements.

FSC Certification:

- Hume Doors & Timber is also a certified member of the Forest Stewardship Council (SGS HK – CoC-010386, SGS HK – CoC- 330930, SA – CoC- 003052).

This Warranty applies to Hume Doors & Timber Pinetrim Plus products supplied for use as an internal finishing timbers / moulding product.

Warranty Period:

- 5 years from proven date of purchase.
- All inquiries relating to this Warranty must be directed to the supplier or installer in the first instance.

Hume Doors & Timber Warrants That:

At the time of delivery to the merchant or site (where applicable), Pinetrim Plus will be free from factory defects and conforms to the current Hume Doors & Timber warranted condition.

In The Event of Proven Product Failure of Pinetrim Plus Products to Meet the Warranted Condition, Subject to the Terms of This Warranty, the Following Applies:

- Hume Doors & Timber will at its discretion, supply replacement Pinetrim Plus product without charge, or refund the value of the product. The installer will be responsible for the cost of removing and installing any replacement materials.
- Other losses or damage caused by product failure are not covered.
- Hume Doors & Timber's obligations under this Warranty are limited to the replacement of defective Pinetrim Plus product or the value of the Pinetrim Plus Product. The value of the materials will be reduced pro-rata based on the remaining life of the product.
- Hume Doors & Timber reserves the right to supply other compatible materials for repair should the warranted materials no longer be supplied by Hume Doors & Timber.

This Warranty is Subject To:

- Proof of date of purchase of the product.
- Evidence of failure.
- Receipt of a written claim from the claimant either within 30 days of when the defect would have become reasonably apparent, or, if the defect was reasonably apparent prior to installation, then the claim must be made prior to installation. The claim must include full details of the alleged defect, including a copy of the proof of purchase. Any claim is subject to inspection by Hume Doors & Timber before any remedial action is undertaken.
- Evidence satisfactory to Hume Doors & Timber that all storage, handling and maintenance requirements (as advised by Hume Doors & Timber) has been carried out.
- The Warranty does not cover failure or problems caused by defective use, failure relating to improper design of the project structure, structural failure, settlement, movement of materials to which the product is attached or dependent on, acts of God including but not limited to earthquakes, cyclones, floods or other severe weather conditions, inadequate maintenance, growth of mould, mildew, fungi, bacteria or any organism on any product, or has acts or omissions of a third party over whom Hume Doors & Timber has no control.
- The Warranty does not cover product failure arising from the failure to follow Hume Doors & Timber design, installation, storage, handling or maintenance advice.
- Normal wear and tear is excluded from this Warranty.
